

Wireman, Week- 7

S. No.	Week No.	Name of Topic	No. of Hours
1	7	Ohm's Law - Simple electrical circuits and problems. Reading of simple Electrical Layout.	(07 hrs)
2		Resistors - Law of Resistance. Series and parallel circuits.	
3		Kirchhoff's Laws and applications. Wheatstone bridge principle and its applications.	
4		Effect of variation of temperature on resistance. Different methods of measuring the values of resistance.
